MEETING MINUTES

Location: MS-Teams

Date: 16 September 2020

Duration: 30 minutes

Group Number: Group E

1. The link for the deliverables folder is shared.

2. We should start working on ERD.

3. URS is a really good start and nice work.

4. More Use cases will be added as time passes.

5. Very good decision to have Trello as task tracker. We can state that on the process report.

6. Export and Save needs more explanation.

7. Instead of login page we can have admin panel.

8. Inputs should be in the Simulation tab.

9. We can have multiple windows(frames) instead of tabs.

10. We can split the toolbox in the simulation page.

11. For now, Login, is a 'Could'.

12. Start the process report.

13. Replace Visio with images.

14. Describe the data and what data are we using.

15. Finalize everything for the Client.
